#### ABOUT WAIAWA LANDS.

"The Colony on Government Land Above Pearl City."

EDITOR EVENING BULLETIN:—I read your very interesting description of the above, and was much astonished to find that there was Government land to be obtained on this Island. Why should this land have been disposed of in the quiet way this seems to have been done? Why not let the general public have a show at it. There must be a "great mystery-man" directing the councils of this Government, and they seem to mean to let him have full sway to the last. I wonder which of the combination it is that has such a mania for keeping the public in the dark.

Yours truly,

DISGUSTED.  
Honolulu, Feb. 1, 1899.

EDITOR EVENING BULLETIN:—Can you inform the public why such a valuable piece of Government land as the one at Waiawa, above Pearl City, should have been disposed of without competition? The general run of people knew nothing of it; did not even know there was government land to dispose of on Oahu. I believe it would have fetched much more money than the government will now receive if put up at public auction in small sized lots. It is reported that it has gone for about five dollars per acre while rail road land near to it, leases for fifteen dollars per acre per annum. Yours truly,  
"ONE WHO WANTS TO KNOW."  
Waipaho, Ewa.

A member of the government makes this statement of the case: "The Waiawa land is all the government domain that has been available for settlement on this island. There are other public lands on Oahu under long leases unexpired." This Waiawa land came into the hands of the general government within the past two years, as part of the lands that had been held by the Board of Education for a long period.

#### Berger-Clark.

Refreshments were served after the wedding. Prof. and Mrs. Berger left for their home in Miller street ahead of a bombardment of rice and old shoes.

It seems that the chainless has come to stay. Also the 30 inch wheel; it is proving quite popular, and manufacturers generally are making it. The chainless at a high price, the 30-inch at about \$5 above roadster rates. Rubber is not likely to be higher, but present prices will be maintained for some time.
